

DRAFT Proposed Workforce Investment Act Title IB Standardized Record Data (WIASRD)

A Brief Explanation	
Why	<p>Information about an individual and their WIA Title IB experiences is used to:</p> <ul style="list-style-type: none">† Share the story of the program's results with consumers, taxpayers and program overseers;† Compare results among WIA service providers, States and with other federally funded programs; and† Evaluate and continuously improve services. <p>This information is required by the legislation. It is confidential and protected by all applicable privacy rules.</p>
Who	<p>A record is developed for each individual dislocated workers and adults registered for and served by the program except for individuals receiving only self-service or informational services. An individual record is required for each individual served using youth funds.</p>
What	<p>Only necessary information is required. Every effort has been made to streamline and simplify the content and format. An individual's record only expands if additional resources are used to provide more costly services. A few items specifically for dislocated workers and youth are included for those records. Governors or local Workforce Investment Boards may add additional items to assist in the management of local or statewide initiatives or programs.</p> <p>Credit for services and outcomes provided by WIA Title IB services is accounted for as are services and outcomes obtained through program partners during the participation and performance outcome periods.</p>
When	<p>A record is submitted in its entirety for each individual annually. However, data for an individual's record will need to be updated more frequently as the data will be used to prepare quarterly and annual reports for the Department of Labor.</p>

How	<p>The record is divided into three main sections:</p> <ul style="list-style-type: none"> í Individual Information; í Activities and Services; and í Outcomes (or results). <p>Each section begins with items needed for everyone at the top of the section, followed by information for people receiving additional services (such as intensive and training services). Finally, any items needed just for dislocated or youth appear at the end of each section.</p> <p>An applicability guide to show which items are required by groups described in the act accompanies each item (please see short notes on grouping codes on page 26. And a helpful definition of the item and frequently asked questions appear on the same line. Programmers will also find a field size/type marker in the item box.</p> <p>Technical instructions for preparing and submitting the record are contained in Appendix A. Please see page 25 for a document index.</p>

	SECTION III B - OUTCOMES FOR YOUNGER YOUTH (Aged 14-18 at registration)								
	Skill Attainment							One goal minimum per year is required for all in- school youth and any appropriately assessed out-of-school youth who need to attain basic skills, work readiness skills, or occupational skills. A maximum of three goals per year may be set for youth outcome purposes. See Appendix E regarding youth skill attainment goals.	
65a Yr.1	Goal #1 type 1 = Basic Skills 2 = Occupational Skills 3 = Work Readiness Skills				•			Setting one basic skills goal required if individual is basic skills deficient and is an in-school youth. DRAFT	
65b Yr.1	<i>Date goal #1 was set</i> YYYYMMDD				•			The date goal was set is the date a goal was identified for the youth, except that the date of the first goal set must be recorded as the registration date. At least one goal must be set within one month of registration and recorded as being set on the registration date.	
65c Yr.1	<i>Attainment of goal #1</i> 1 = Attained 2 = Set, but not attained 3 = Set, but attainment pending				•			<u>Goal attained</u> . Attainment of a goal is to be based on individual assessments using widely accepted and recognized measurement/assessment techniques. <u>Goal set, but not attained</u> . Goals not attained include goals whose anniversary date has passed without attainment of the goal and without the goal being canceled. The anniversary date of a goal is the date one year after the date the goal was set. <u>Goal set, but attainment pending</u> . Includes goals that have not been attained, but have anniversary dates after the end of the report quarter. This category also includes goals that have been postponed because of gaps in service where the participant was placed in a hold status during which services were not received, but the participant planned to return to the program.	
65d Yr.1	<i>Date attained goal #1</i> YYYYMMDD				•			The date the goal was attained is the date on which it was determined that the individual attained a goal. This would normally be the date on which the individual's skills were tested or otherwise assessed. This date should normally be on or before the one-year anniversary of the date the goal is set. However, it may be later if the participant had a gap in service where he/she was placed in a hold status during which services were not received, but the participant planned to return to the program.	
66a Yr.1	<i>Goal #2 type</i> 1 = Basic Skills 2 = Occupational Skills 3 = Work Readiness Skills 4 = Goal #2 Not Set				•			See Item 65a

68	<i>Other Youth Outcomes</i> 1 = Attained a secondary school (high school) diploma 2 = Attained a GED or high school equivalency diploma 3 = Attending secondary school at exit					•		1. The youth attained a secondary (high school) diploma recognized by the state during enrollment by time of exit. Do not count certificates of completion. However, Individualized Educational Program (IEP) diplomas are to be counted. 2. The youth attained a GED or high school equivalency diploma recognized by the state during enrollment by time of exit. 3. The youth exited WIA services but was still attending secondary school at exit.	
69	<i>Date of high school diploma or GED attainment</i> YYYYMMDD					•		The date of attainment should be the date on the diploma or equivalency certificate, if available. Otherwise, the date may be estimated.	
70	<i>Youth placement information</i> 1= Entered postsecondary education 2= Entered advanced training 3= Entered military service 4= Entered a qualified apprenticeship 5= Entered unsubsidized employment 6= Did not enter 1-5 above					•		Record whether or not the youth entered the following activities within 1 quarter of exit . Entry into these activities may be determined through information obtained from the participant during case management and follow-up services, administrative records (including wage records, where appropriate), surveys of participants, and other similar methods. Also record the date that these activities were entered. If entrance dates are not known precisely they may be estimated. Postsecondary education and advanced training are defined in Item 64. 1 Should be recorded only if the youth started to attend classes.

								2 Should be recorded only if the youth started to attend classes. 3 The youth entered military service (i.e., reported for active duty). 4 The individual entered a qualified apprenticeship program, i.e., a program approved and recorded by the ETA/Bureau of Apprenticeship and Training or by a recognized State Apprenticeship Agency. Approval is by certified registration or other appropriate written credential. 5 The youth entered full- or part-time unsubsidized employment. Unsubsidized employment is any employment, including self-employment, not financed by either funds provided under the Act or by direct wage subsidies provided by any type of public funds. See Item 47 for the definition of employment. Also include entry into the Peace Corps, VISTA and other National Service programs funded by the Federal Corporation for National and Community Service under the National and Community Service Trust Act of 1993 (Examples are activities in the AmeriCorps and the National Civilian Community Corps programs). Do not include entry into the Armed Forces or entry into a qualified apprenticeship program.	
71	<i>Youth Retention Information (For all youth except those still attending secondary school at exit). Was the youth active in the third quarter following the exit quarter in any of the following activities:</i> 1= Entered postsecondary education 2= Entered advanced training 3= Entered military service 4= Entered a qualified apprenticeship 5= Entered unsubsidized employment 6= Was not retained in 1-5 above				•			Record yes for each item if the youth was in the activity any time during the third quarter after exit. See item 70 for other definitions.

General Instructions

Please record items 1-11, 26-31, and 4-63 for adults receiving core services only (beyond self-service/ informational services). Please add items 16 and 17 for Dislocated workers receiving core services only (beyond self-service/ informational services).

The following instructions provide the format and the definitions that will be used to transmit the registrant information each program year beginning with Program Year 2000.

Data must be submitted annually for all adults and dislocated workers who have received core services (other than self-service or informational), intensive services or training services. Once an adult or dislocated worker is record is submitted, updated records must be provided in each

subsequent year until the information in Section IIIA (Program Outcomes for Adults, Dislocated Workers and Older Youth) is complete. Normally the last item to become available will be Item 60 (Total earnings from wage records in the fifth quarter following the exit quarter.) This information will typically become available in the fifth or sixth quarter after exit. Thus, an individual's data will be recorded for the registration year, each participation year, the exit year, and for one or two post-exit years.

Records for all youth aged under age 19 at exit must be submitted annually beginning with the registration year and ending with the year when the information in both Item 46 (received follow-up services) and Section IIIB (Outcomes for youth 14-18) is complete. Normally the last information to become available will be Item 71, which relates to outcomes in the third quarter after exit. This information should normally be available to be included in the record for the fourth quarter after exit. Thus, data for an individual youth aged 14 to 18 at registration will be submitted for the registration year, each participation year, the exit year, and for one post-exit year.

Records for youth age 19 or over at registration must be submitted annually beginning with the registration year and ending with the year when the information in Section IIIA (Program Outcomes for Adults, Dislocated Workers and Older Youth) is complete. Normally the last item to become available will be Item 60 (Total earnings from wage records in the fifth quarter following the exit quarter.) This information will typically become available in the fifth or sixth quarter after exit. Thus, an older youth's data will be submitted for the registration year, each participation year, the exit year, and for one or two post-exit years.

DRAFT

Self-reported information is acceptable for reporting purposes except when used for eligibility determination or when otherwise specified in the instructions.

If an adult, dislocated worker or youth is enrolled in multiple programs, a separate record must be submitted for each of the following programs that require different codes in Item 26, ETA-assigned WIB/Statewide code or Item 31j, National Emergency Grant Number:

- a. Each local WIB (regardless of the source of local funds);
- b. Each National Emergency Grant;
- c. Rapid Response; and
- d. Other Statewide activities.

Note that if an individual is served by multiple local funding sources/programs (e.g., youth and adult funds) from a single local WIB, only one record should be submitted. However, all sections relevant to each funding source/program must be completed.

Each annual record is to provide cumulative information on the registrant's characteristics, services, and outcomes. Thus, characteristics at registration should continue to be reported in subsequent years. Additional characteristics information should be reported when it becomes available. Similarly, services information should include all services received by the participant during the report year and in previous years. Outcome information should be included in the record when it becomes available and continue to be transmitted in subsequent years. Information can, however, be updated or corrected in subsequent years.

Records must be transmitted within 45 days following the end of the program year:

Program Year Ending Dates	Record Due Dates
June 30, 2001	Monday, August 14, 2001
June 30, 2002	Tuesday, August 14, 2002
June 30, 2003	Wednesday, August 14, 2003
June 30, 2004	Thursday, August 14, 2004

These records must be complete and accurate.

NOTE: Data provided on the WIA Standardized Record will not be used for purposes of performance incentives and sanctions, which will be based on aggregate data submitted states in the annual report.

Data Items and Definitions. The data items in this system and their associated definitions are designed to provide uniform information about program registration, activities and their outcomes. Though efforts have been made to make definitions consistent with those used for other purposes, they do not, however, in any way, reduce the Governor's authority to establish certain definitions that affect program eligibility.

Beginning on the effective date of this reporting system, July 1, 2000, Items 1 through 9 are to be collected and retained for all adult and dislocated worker registrants receiving services beyond informational/self-services and all youth **applicants** (eligible and ineligible) under Title I of the WIA program. These records must be retained for a period of time that is consistent with requirements issued by the Directorate of Civil Rights.

Data recorded on socioeconomic characteristics of registrants (data items 1-12 and 15) should be based on information collected and/or confirmed at time of registration unless otherwise indicated.

As shown in the attached data definitions the required data items depend on the funding source (adult, dislocated worker, youth), on youths' age at registration, and on the services received by adults and dislocated workers. Required items are marked with a • in the relevant column: adults receiving core services (other than informational or self-service) only, adults receiving intensive or training services, dislocated workers receiving core services (other than informational or self-service) only, dislocated workers receiving intensive or training services, youth age 14 to 18 at registration, and youth age 19 to 21 at registration.

Items 1-11, 26-31, and 4-63 for adults receiving core services only (beyond self-service/ informational services except that items 16 and 17 are also required for dislocated workers receiving core services only. All other items are optional for adults and dislocated workers receiving core services only and the code for N/A can be used.

All items are optional for adults and dislocated workers receiving only core services classified by the state as informational or self-service. No records are to be submitted for these individuals.

Adult items should be recorded for individuals (18 and over) served by adult program funds. Dislocated worker items should be recorded for individuals served by dislocated worker funds. Youth items should be recorded for individuals served by youth program funds. If a person is served by multiple programs, record all relevant items.

Appendix C

Reporting Services

All WIA Title I funded services should be reported. In addition, programs may report services provided by non-WIA Title I funded one-stop partner programs as long as the person has been registered for WIA Title I services and:

- (1) is concurrently receiving WIA Title I funded core (beyond information/self-service), intensive, or training services while receiving partner services;
- (2) is scheduled to receive WIA Title I funded core (beyond information/self-service), intensive, or training services at a future date while receiving partner services or upon exit of the partner services; or
- (3) moves to partner services, and can be tracked while receiving and upon exit of partner services.

For example: a customer registers for WIA Title I services, receives core and/or intensive services, then goes to a training program funded by a non-WIA Title I program. As long as the customer continues to receive some WIA funded core or intensive services while in the training program or is scheduled to receive a future WIA funded core or intensive service after exiting the training program, the training services may be reported.

DRAFT

The following services should be included:

- Staff assisted job search and placement assistance, including career counseling.
- Follow-up services, including counseling regarding the workplace.
- Staff assisted job referrals (such as testing and background checks)
- Job development (working with employer and jobseeker)
- Other core services with a significant involvement of resources or staff time.

Intensive services are for unemployed adults and dislocated workers who, "are unable to obtain employment through core services and require these services to obtain or retain employment, and employed workers who need services to obtain or retain employment that leads to self-sufficiency." The regulations at §663.240 and §663.250 specify that an individual must receive at least one intensive service, such as the development of an individual employment plan with a case manager or individual counseling and career planning, before the individual may receive training services. Intensive services may include:

- S Comprehensive and specialized assessments of skill levels and service needs including:
 - S diagnostic testing and use of other assessment tools; and
 - S in-depth interviewing and evaluation to identify employment barriers and appropriate employment goals;
- S Development of an individual employment plan, to identify the employment goals, appropriate achievement objectives, and appropriate combination of services for the participant to achieve the employment goals;
- S Group counseling;
- S Individual counseling and career planning;
- S Case management for participants seeking training services;

- S Short-term prevocational services, including development of learning skills, communication skills, interviewing skills, punctuality, personal maintenance skills, and professional conduct, to prepare individuals for unsubsidized employment or training;
- S Out-of-area job search expenses;
- S Relocation expenses;
 - Internships; and
 - Work experience.

Please note: The Interim Final Rule (20 CFR Part 652, et al.) Part 663, Subpart B provides that intensive services beyond those listed in the Act may also be provided.

Training services are designed to equip individuals to enter the workforce and retain employment. According to §663, Subpart C 2., of the Interim Rules and Regulations (20 CFR, Part 652, et al) "in determining the need for training, an individual must (1) meet the eligibility requirements for intensive services; (2) be unable to obtain or retain employment through such services; and (3) be determined after an interview, evaluation or assessment to be in need of training." Section 663.310 further requires that, to receive training, an individual must select a program of services directly linked to occupations in demand in the area, based on information provided by the One-Stop operator or partner. If individuals are willing to relocate, they may receive training in occupations in demand in another area.

Training services include:

- S Occupational skills training
- S On-the-job training
- S Workplace training and cooperative education programs
- S Private sector training programs
- S Skill upgrading and retraining
- S Entrepreneurial training
- S Job readiness training
- S Adult education and literacy training activities in combination with other training
- S Customized training

Appendix E

Youth Skill Types

Basic skills

Basic education skills include reading comprehension, math computation, writing, speaking, listening, problem solving, reasoning, and the capacity to use these skills in the workplace.

Occupational skills

Primary occupational skills encompass the proficiency to perform actual tasks and technical functions required by certain occupational fields at entry, intermediate or advanced levels. Secondary occupational skills entail familiarity with and use of set-up procedures, safety measures, work-related terminology, record keeping and paperwork formats, tools, equipment and materials, and breakdown and clean-up routines.

Work Readiness Skills

Work readiness skills include world of work **DRAFT** awareness, labor market knowledge, occupational information, values clarification and personal understanding, career planning and decision making, and job search techniques (resumes, interviews, applications, and follow-up letters). They also encompass survival/daily living skills such as using the phone, telling time, shopping, renting an apartment, opening a bank account, and using public transportation. They also include positive work habits, attitudes, and behavior such as punctuality, regular attendance, presenting a neat appearance, getting along and working well with others, exhibiting good conduct, following instructions and completing tasks, accepting constructive criticism from supervisors and co-workers, showing initiative and reliability, and assuming the responsibilities involved in maintaining a job. This category also entails developing motivation and adaptability, obtaining effective coping and problem-solving skills, and acquiring an improved self image.
